Why support the AJX Foundation?

The Mission of the AJX Foundation is to help young people learn, succeed and lead through opportunities forged by an alliance of people passionate about the next generation.

Since 1999, the Foundation members have worked with several Community and Non-Profit organizations on campaigns that generate funds for scholarships and community related service programs.

Through the combination of public and private funds, the Foundation's mission reflects the life-changing impact in North Texas communities that enables young men & women, their families and communities the opportunity to achieve educational goals through scholarship programs, workshops for career development and programs that assist in community improvement projects that will better serve their communities for the next generation.

AJX Foundation Scholars

The AJX Foundation awards scholarships each spring to North Texas high school seniors as financial assistance to help young men and women from moderate families have the opportunity to pursue their undergraduate studies at a four year college or institution.

Joshua Alvarez - 2011 Scholar

I have a strong desire to help others and make an impact in their lives. I want people to know that no matter who you are or where you come from you can achieve all your goals and dreams with hard work, determination, and motivation. I want to lead and guide others to make a difference in the world. I want

my legacy to be that I made a positive impact in the lives' of others. Throughout my involvement in various organizations I gained a desire to render service and lead others to do the same. It truly is great to know that there are good things being done and that there are people who will lend you a hand if you need it. I would like to thank the AJX Foundation for helping me fund my education. It is with the help and support of organizations like the AJX that assist students like me to pursue an education. I am truly grateful and honored that I was selected as the recipient of your scholarship. I hope one day I will be able

to assist other students achieve their goals just as you have assisted me. Thank you."

Michelle Cruz, 2010 Scholar

"After witnessing the kindness in people's hearts who create organizations from those centering on scholarships to those who aim to feed the poor, I'm certain that I will want to be a part of something like that. I'm so grateful for people with such a sense of community and care because I know so many unfortunate people who truly need help. It's an amazing feeling to see someone be lifted out of their turmoil and to witness someone follow their dreams because of something you helped them with. I hope that someday I can provide people with the same feeling of gratefulness that I have felt so much, particularly this year with all the reinforcement I've received to achieve my goals."

Alicia McClung, 2009 Scholar

"I cannot fully express how much satisfaction can come from knowing that you are helping someone grow as an individual."

India Williams, 2008 Scholar

"Dreams are attainable, but so much of the next generation needs support to achieve their dreams. I know that it isn't something I'll be able to do on my own, because giving back to the community and becoming a leader will be something I will grow into and I would like to thank the AJX Foundation for allowing me the opportunity to grow as an influence to impact others in the future."
