“We're excited about the Computer Grants opportunity to provide a future NISD leader with a new computer to go to go off to college with”, said Brian Connelly, Co-Founder of AJX Foundation. "It

not only supports the AJX Foundation’s outreach initiative, but assists in providing an invaluable education resource to those who could otherwise not afford it."

**The Foundation was so touched by the generosity of the Trophy Club Women Club in providing the computer grant that we have decided to contribute the additional funds necessary to stretch this program further to award an additional student.**

Members from AJX will work closely with NISD administration to select the recipients.
